CalmCharge
Hand warmer and power bank

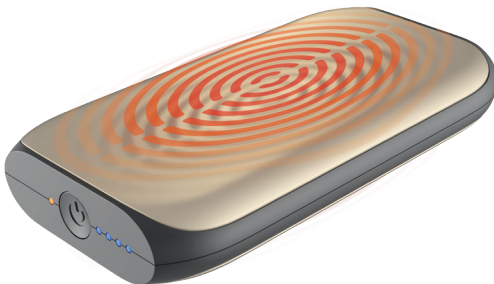

CalmCharge

Gentle warming for the hands

The new **CalmCharge** has 2 aluminum warming surfaces that can be heated to 113°F (45°C) at the touch of a button, delivering gentle warmth directly to your hands.

Whether with one hand in your pocket or between both hands, you'll quickly lose that shivery feeling. After 30 minutes, the warmth turns off automatically.

CalmCharge

10.000 mAh Power bank

The new **CalmCharge** is a large 10,000 mAh power bank for powering and charging up to three USB devices such as Smartphones, Smartwatches, EarPods, Hearing aids and more.

The device has one USB Type-C® and two USB-A outputs on the bottom. This gives you independence and mobility. The USB Type-C® port also serves as an input to recharge the integrated battery.
